

Summary Unit 3 – 3º E. Primaria

Portrait and Self-Portrait

We make a self-portrait, but others make a portrait of us.

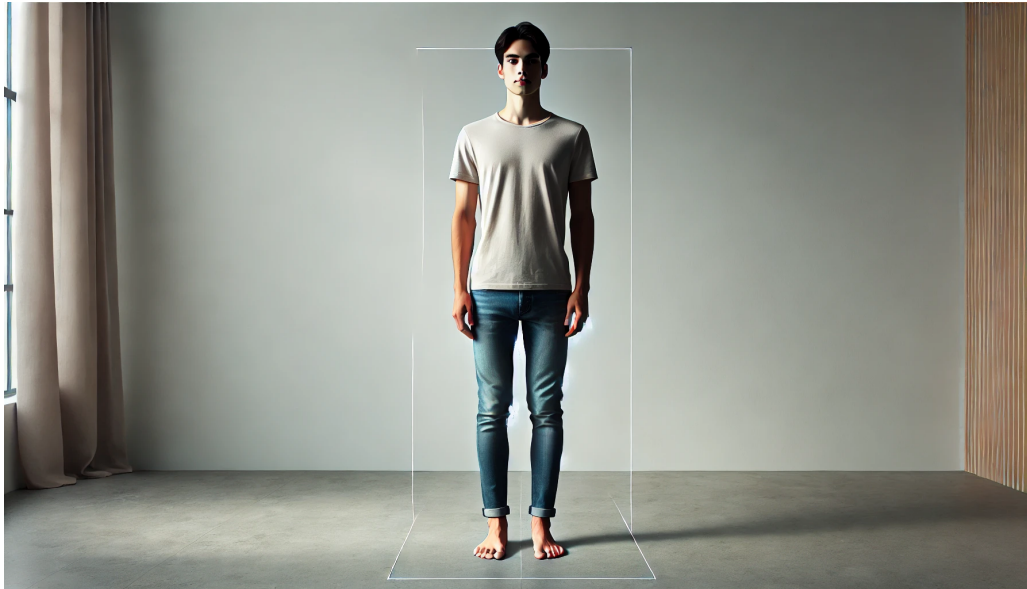

Close-up and Full-body Portrait Photographs

In a close-up portrait photograph, we see the subject's face, neck, and shoulders.

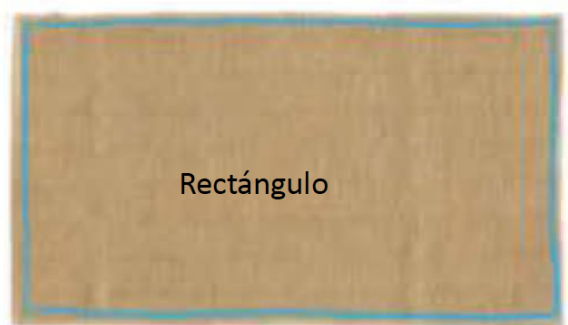

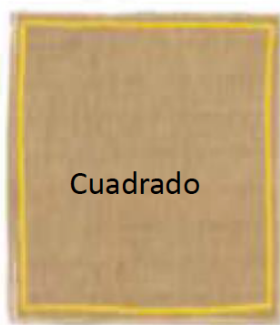

In a full-body portrait photograph, we see the entire body of the subject.

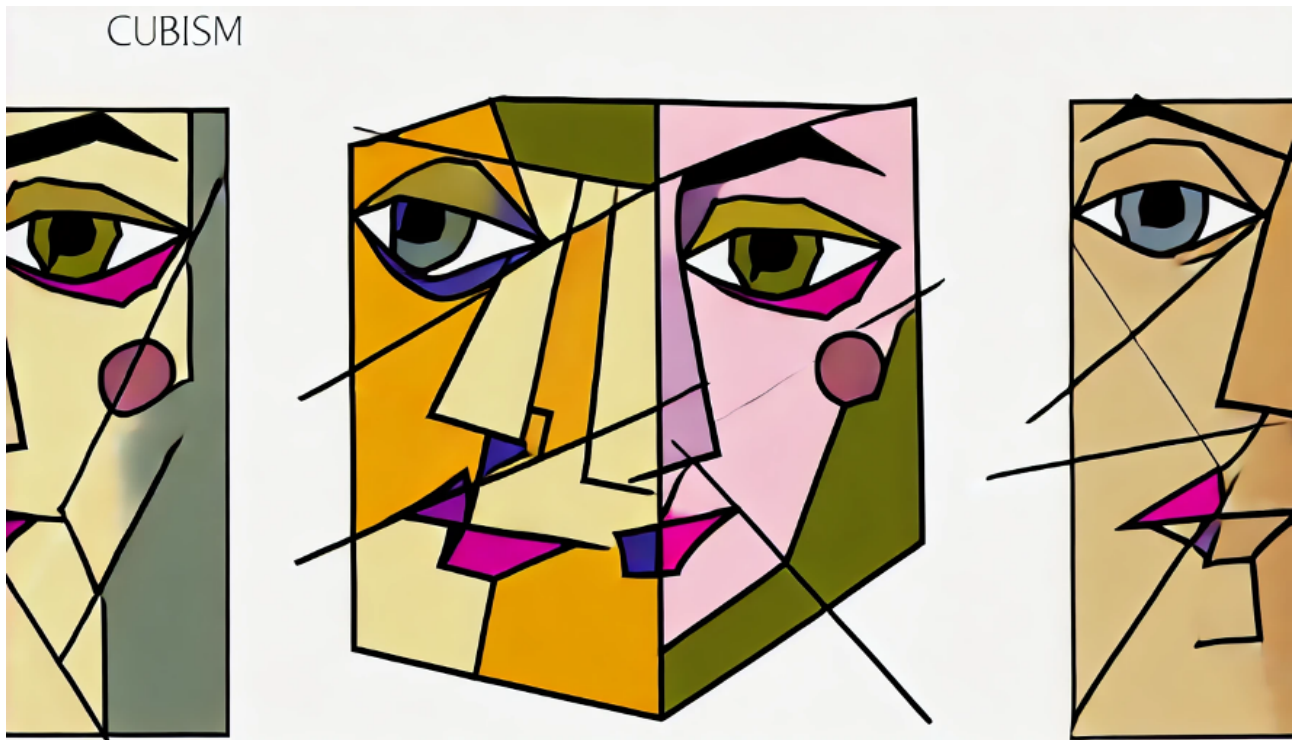

Geometric Shapes

Geometric shapes include circle, square, rectangle, triangle, rhombus and oval.

Cubism and Collage

Cubism is an artistic style. It uses geometric shapes similar to cubes and represents the same object or face from different perspectives.

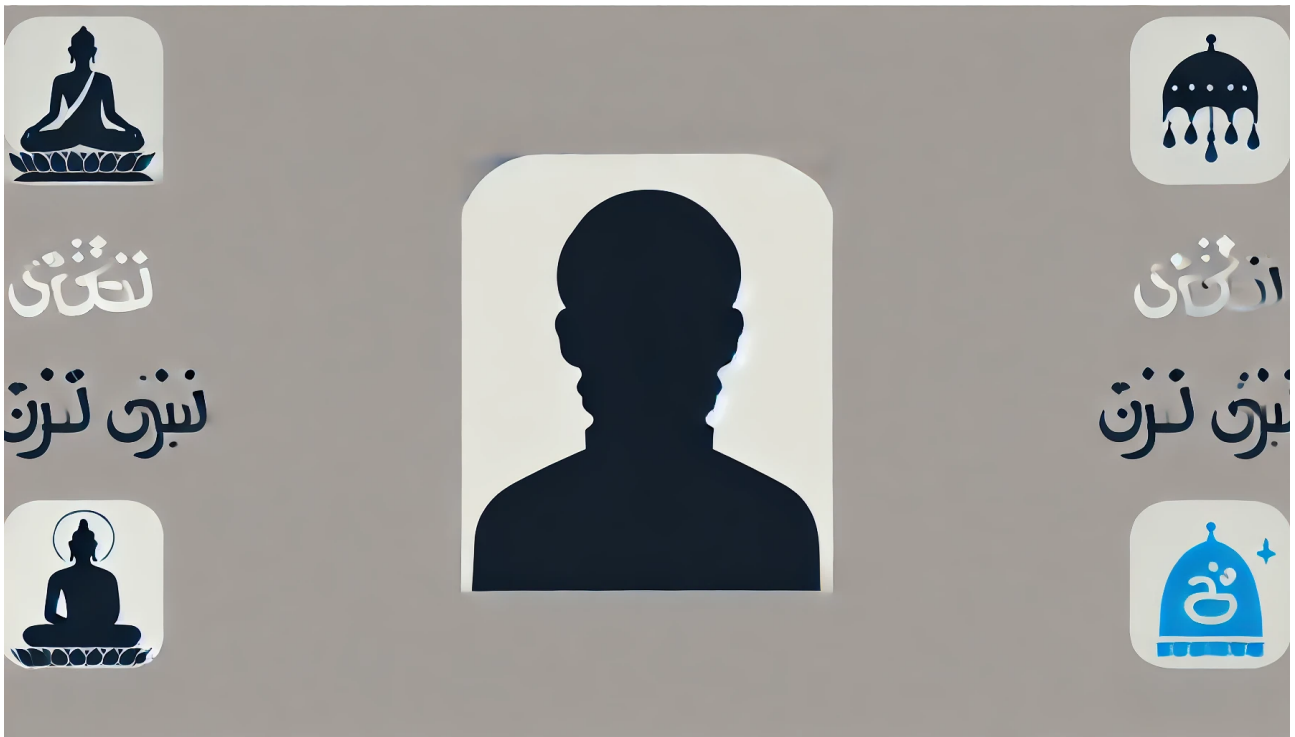

The technique of collage involves using cutouts from different materials in a work of art.

Silhouettes

A silhouette shows an object or figure without outline or details.

Still Lifes

A still life is a work of art that shows objects and food.
